CAUSE-DRIVEN

One of the world's first cause corporations, **STOKE** BROKER is wholly owned by First Descents - a nonprofit that provides life-changing outdoor adventures for young adults impacted by cancer and other serious illnesses.

All profits benefit First Descents to fuel program expansion.

A group of people in colorful kayaks (red, yellow, blue, green) are arranged in a large circle on a dark green river. The kayakers are wearing helmets and life jackets. The background is a dark, textured surface with a faint, stylized leaf or flame pattern on the left side.

ADVENTURE CREATES IMPACT
WE CREATE ADVENTURE

A LETTER FROM OUR FOUNDER

My life is a result of adventure. All of my days have been rooted in and shaped by the call of wild places. Chasing the sun through snow-capped peaks; kayaking untamed rivers; tracking animals through the high country; skiing untouched mountain slopes; and sitting just beyond the break at sunset — these are the spaces and places that are integral to my being.

I've been lead to the best places and met the best people through this type of adventure and wandering. I've seen how the power of these experiences is rooted deep in our DNA. We lead more intentional lives full of purpose, passion and drive. We learn about ourselves and the world beyond us. Adventure creates the storites we tell that come to define us. It makes us better. It heals us.

I've been incredibly fortunate in my pursuit of adventure, and I've met some extraordinary folks along the way. And I think all of that is well worth sharing. It's why I created Stoke Broker. We provide pinnacle, ultra-customized, unmatched adventure experiences built specifically for you, and deliver them to your doorstep so that all you have to do is say "yes" and the rest.... well, the rest is where it all begins.

See you out there,

WHY ADVENTURE? BECAUSE ADVENTURE MAKES US WHOLE

Adventure is the deliberate process of expanding our boundaries, both internal and external, through activities that excite the soul and focus the mind.

Pushing ourselves, externally with risk and internally with awareness, has profound effects on our capacity for joy, creativity, empathy, entrepreneurship and personal innovation.

Above all, adventure connects us to ourselves, each other, and the natural world.

ADVENTURE DESIGN LOOKS LIKE...

FLY TO A REMOTE RIVER IN ALASKA...

Catch running salmon on a fly rod. Your boat meets you, loaded for an overnight excursion to an uninhabited island. Eat mussels from the beach and fresh fish from that day's catch. Warm yourself in front of a giant bonfire. Wake up to catch waves on your own surf break with 19,000' peaks looming in the background.

After traveling throughout the world, I was beyond excited that Stoke Broker was able to curate and implement an Alaskan surf and fishing trip that, to this day, remains my most memorable travel experience. The authenticity, the people and the setting were all beyond words and expectations. I would highly recommend Stoke Broker to help guide a client looking for an experience of his lifetime!
